MD. SHOLAYMAN

JUNIOR FULL STACK DEVELOPER

I am a qualified and professional full stack web developer with two year of experience in front end and one year of experience in backend with Strong creative and analytical skills. Team player with an eye for detail.

PROJECTS

ECOMMERCE BACKEND

GitHub Repo

Overview:This rest api is simple open source backend for a ecommerce website or mobile app created by node.js,express.js and mongdb database.This backend only provides service for an user interface.One time user login via email and otp are available for an user and we have made sure an user account is secure by using package like jsonwebtoken.I've also used package like helmet,hpp,cors,dotenv,xss-clean,express-mongo-sanitize,express-rate-limit etc as a security middleware.

Tools:Node.js,express.js,MongoDB,Mongoose,Git,GitHub,Postman,Webstrom ide

SALES ANALYTICS API
GitHub Repo

Overview:This rest api is a very simple backend for an analysis service created by node.js,express.js and mongdb database.This backend only provides service for an user interface.I've also used package like helmet,hpp,cors,dotenv,xss-clean,express-mongo-sanitize,express-rate-limit etc as a security middleware.

Tools:Node.js,express.js,MongoDB,Mongoose,Git,GitHub,Postman,Webstrom ide

BOOKSTORE
GitHub Repo

Overview:Bookstore is an Open-Source simple full stack book previewing website.I've simply scafoolded backend with front end in this project. I've used package like helemt,xss-clean,helmet,express rate limit, jsonwebtoken,cors,express-mongo-sanitize etc as security middleware which are making backend secure.I've also implemented one time otp login by email for user.

Tools:Node.js,express.js,MongoDB,Mongoose,Git,GitHub,Postman,React,Tailwind CSS , Material Tailwind,React Router Dom, Webstrom ide
